The **Nashville Scene** called Bradley Walker “arguably the best unsigned singer in bluegrass” in 2003, and while that’s no longer true today, it’s only because he’s no longer unsigned. Releasing his Carl Jackson-produced Rounder Records debut, *Highway Of Dreams*, in 2006, Walker celebrated with a featured show that fall at Nashville’s Ryman Auditorium and a national TV appearance on Jerry Lewis’ renowned *MDA Telethon* that stunned audiences with his rich, country-flavored baritone voice. Born with a form of muscular dystrophy, Bradley’s determination first won him fans among bluegrass’ most prominent artists – Illrd Tyme Out and the Lonesome River Band among them – and earned him guest appearances on stage and television with them before he launched his solo career. Since then, he’s become a favorite of fans across the country for his intimate delivery, winning sense of humor, unmistakable sincerity and pure artistry.

“...inspirational and heartbreaking, a voice that would make Lefty Frizzell proud.”
- Brian Mansfield, **USA Today**

“It has been many years since I have been moved by a debut album the way I am moved by Highway of Dreams” - Robert K. Oermann, **Music Row**, 2006

“...Walker is a powerhouse...he gets it right every time.”
- Ken Tucker, **Entertainment Weekly**, 2006

“...wowing audiences everywhere...Walker seems poised to go as far as he wants.”
-Chris Neal, **Country Weekly**, 2007
